Andy;

Per our conversations this morning, I want to confirm with you we stopped ITC wastewater treatment this morning.

In a follow-up conversation, you said there is an issue with our status as a centralized waste treatment facility.

In our 2018 TPDES permit renewal, we submitted the following pages clearly specifying our intent to be a centralized waste treatment facility that receives and treat third-party wastewater.

If TCEQ is saying we do not have authorization as a CWT, SWSLP has a broader issue with the regulatory interpretation and needs to be involved in the discussions going forward.

Regards,

Dan Irvin, P.E.
